RE: **Anthem Blue Cross Life and Health Insurance Company**

Rates for Individual Policies

Form Numbers: [INDSS 09 01 10]-RAT ; DN13, DN14, DN15 [09-01-10]-RAT ;

P958, PE48, PE49 [09-01-10]-RAT ; H062, 1930, 1929 [09-01-10]-RAT ;

NM31, PE27 [09-01-10]-RAT ; R420, T160 [09-01-10]-RAT ;

[IND CDHP HSA 09 01 10]-RAT, [IND CDHP HIA 09 01 10]-RAT, [IND CDHP HIA Plus 09 01 10]-RAT

Dear Mr. Kupferman:

Enclosed please find two copies of rates and rate filing information for Anthem Blue Cross Life and Health Insurance Company in compliance with California Code of Regulations (CCR) 2222.12. These proposed rates, which are to be effective September 1, 2010, are to be used with the medical plans referenced in the above Form Number section and will replace existing rates filed under PF-2008-02168, PF-2008-02169, PF-2008-02170, PF-2008-02171, PF-2008-02172, PF-2008-02173 and PF-2008-02174.

Please note that the sections below address all products being filed for September 1, 2010 effective dates. With this rate filing, each of the product families is compliant with CCR 2222.12. As you review the filing, please note the following:

1. **Minimum Lifetime Loss Ratio Calculation:** The purpose of the filing is to establish compliance with the minimum lifetime loss ratio standard of 70%. We have included the calculation of a projected lifetime loss ratio as a demonstration of regulatory compliance. The calculation should not be construed as targets. With this filing, Anthem has determined that each of the product families is compliant with this regulatory requirement.
2. **Axene Health Partners Recommendations:** The California Department of Insurance retained Axene Health Partners (AHP) to review our prior rate filings for these products which were to be effective on March 1, 2010. These filings have since been withdrawn. However, based on the recommendations in the AHP report, we have made the following refinements to the lifetime loss ratio model:
 - Aging is explicitly removed from the underlying trend used in the model.
 - The initial medical trend used to project claims for January 2010 is adjusted for known risk factors.
 - The durational loss ratio factor for Year 11+ is set equal to Year 10.
 - We have modified the premium pmpm projection to be based on a weighted average of current and prior rates.
 - We applied a seasonality adjustment to our base period that is used to project January 2010 claims.
 - We made adjustments to our historical trend analysis, starting point projection, based on AHP recommendations.
3. **We are filing for an average rate increase of 13.7% effective September 1, 2010.** Further, heeding the guidance in the AHP report detailing their review of our previous filing, we are capping rate increases including aging at less than 20% to mitigate the magnitude of rate increases for any single individual. The chart below summarizes the average rate increases before aging and incorporates the impact of capping by product:

Product	Average Rate Increase Before Aging
<i>3500 Deductible Plans</i>	10.1%
<i>Tonik</i>	14.5%
<i>Right Plan</i>	13.8%
<i>CDHP Non-Maternity</i>	12.5%
<i>CDHP Maternity</i>	15.3%
<i>SmartSense</i>	14.7%
<i>PPO Share (CDI)</i>	14.1%
<i>PPO Saver</i>	13.1%
Total	13.7%

4. **Pricing Philosophy:** This filing meets our objectives to comply with all state and federal laws and regulations, and to provide products that are competitively priced and meet our customers' needs for healthcare insurance protection.

Thank you for your consideration of this filing. If you have any questions about the enclosed materials or need additional information, please call me at 502.889.2737.

Sincerely,

Frederick Busch, F.S.A., M.A.A.A.
Regional VP and Actuary I

11. REMARKS AND ADDITIONAL INFORMATION (Attach additional sheets if necessary):

MAKE SURE THAT A COMPLETED 3-PART DOCUMENT SUBMISSION FORMSET IS INCLUDED [Filings of documents described in §2202(a)(1) through (a)(11) shall include three-part Document Submission Formsets. §2216(a)]

MAKE SURE THAT A STAMPED, RETURN ADDRESSED ENVELOPE IS INCLUDED [The cover letter shall be accompanied by a stamped, self-addressed business-size return envelope. §2205(i)]

SUBMITTER'S SIGNATURE AND TITLE: _____

Fritz Busch, F.S.A., M.A.A.A.
Regional VP and Actuary I

Anthem Blue Cross Life and Health Insurance Company
Actuarial Memorandum
Individual Rates effective September 1, 2010

The purpose of this filing is to establish rates for the forms below and certify that these rates are in compliance with the minimum lifetime loss ratio standard set in California Code of Regulations 2222.12.

This filing is not intended to establish target lifetime loss ratios and should not be interpreted as such. The lifetime loss study described in the body of the memorandum is a test under a reasonable set of assumptions that the lifetime loss ratio and future lifetime loss ratios are above 70%.

1. Policy Form Numbers and Names

[INDSS] SmartSense

2. Description of Benefits Provided

Comprehensive major medical benefits are provided for inpatient and outpatient hospital and physician services. There are a range of deductible, coinsurance, and out-of-pocket maximums, listed below.

Plan Name	Deductible (IN/OON) *	Coins ** (IN/OON) *	Out-of-Pocket Max (IN/OON) *	Prescription RX
SmartSense 500 Generic Rx Coverage option	500/5000	70%/50%	3000/15000	Generic RX Only
SmartSense 1500 Generic Rx Coverage option	1500/5000	70%/50%	4000/15000	Generic RX Only
SmartSense 2500 Generic Rx Coverage option	2500/5000	70%/50%	5000/15000	Generic RX Only
SmartSense 5000 Generic Rx Coverage option	5000/5000	70%/50%	7500/15000	Generic RX Only
SmartSense 500 Full Rx Coverage option	500/5000	70%/50%	3000/15000	Full RX Coverage
SmartSense 1500 Full Rx Coverage option	1500/5000	70%/50%	4000/15000	Full RX Coverage
SmartSense 2500 Full Rx Coverage option	2500/5000	70%/50%	5000/15000	Full RX Coverage
SmartSense 5000 Full Rx Coverage option	5000/5000	70%/50%	7500/15000	Full RX Coverage

* IN = In-Network, OON = Out-of-Network

** The coinsurance shown is the percent paid by BCL&H

The first three in-network office visits in a calendar year are covered at a \$30 Copay per visit, deductible waived. Additional office visits are subject to the deductible and coinsurance.

Maternity is not covered.

Prescription drug benefits are provided. There are Generic RX only and Full RX coverage options available for each deductible. The member pays the greater of a \$15 Copay or 40% coinsurance per prescription. For plans with Full RX coverage, there is a \$500 Brand Name and Specialty pharmacy drug coinsurance maximum per prescription when purchased at Participating Pharmacies. There is also a \$5000 Brand Name and Specialty Prescription Drug Out-of-Pocket Maximum for Prescription Drugs per Year purchased from Participating Pharmacies.

3. Rate Increase Filed

We are filing for an average rate increase of 14.7% for current subscribers effective September 1, 2010.

Our strategy is to soften the impact of rate increases due to increases in a member's attained age (aging) on our members by applying subscriber adjustment factors, also known as "rate caps". The average rate increase before capping is 15.5% and the impact of applying the subscriber adjustment factors is -0.7%. As stated above, the overall average increase is $(1+15.5\%)*(1-0.7\%) - 1 = 14.7\%$.

These rate increase calculations are performed on a seriatim basis through a Microsoft Access database. We will make this database available to the Department upon request.

After the effects of aging and subscriber adjustment factors, rates are capped at 19.9%. Due to the use of subscriber adjustment factors, the premium rate charged to an existing subscriber may be lower than the new business rate. Please note that capping is subject to effects of rounding in our billing system. It is possible that a small number of subscribers may experience a rate increase which is higher than the cap by less than \$1 per member. However, this situation is very uncommon and we estimate that less than 0.1% of subscribers will exceed the cap due to rounding.

The 14.7% rate increase is based on a September 1, 2010 effective date. Each month of delay past September will cause the rating period to be one month later than intended by our pricing. Therefore, we are filing for a trend adjustment if the rate increase is delayed. In this case, the rate increase will be $(1+1.5\%)^n - 1$ higher where n is the number of months the rate increase is delayed. For example, if the effective date is delayed until October 1, 2010, then the rates will be 1.5% higher across the board to account for one month of trend. The average increase will then be: $(1+14.7\%)*(1+1.5\%) - 1 = 16.4\%$.

The lifetime loss ratio projection described in Section 6 is based on the September 1, 2010 effective date. If the rate increase is delayed and the trend adjustment is applied, the projected lifetime loss ratio would change slightly but the product would still be in compliance with the minimum lifetime loss ratio standard.

4. Premium Rate Structure

The premium rates vary by the attained age and gender of each member. Premium rates also vary according to contract type, single or family, and by underwriting tier and region.

The rate for a family contract is equal to the sum of all family members' rates. Only the three youngest dependent children are charged. The fourth dependent child and above are not charged.

Upon sale, members are assigned a renewal month and do not receive rate increases until their assigned renewal month. The policy is renewable monthly. However, there is a 12-month rate guarantee at initial sale.

Note that a member's renewal month is usually their anniversary month. However, for this rate increase we have changed the March through August renewal months for members who are not subject to a rate guarantee to September, because we have deferred the rate increase from March 2010 to September 2010. We are assuming that members' renewal dates in 2011 will be adjusted back to their original renewal month.

5. Effects of Health Care Reform

We anticipate the following effects of Federal Healthcare Reform on these policy forms:

- Members who were sold on these policies prior to March 23, 2010 are subject to grandfathering. Once grandfathering rules are clarified, we would intend to adjust our portfolio accordingly.
- Dependents will be covered up to age 26. This has no pricing impact.
- Removal of lifetime limits. This has no pricing impact.

6. Expected Lifetime Loss Ratio

The Regulatory standard for pricing hospital, medical, and surgical policies set forth in California Code of Regulations 2222.12 states that for each policy delivered on or after 7/1/2007 and also each policy that receives a rate revision on or after 7/1/2007, benefits shall be deemed reasonable in relation to premiums if 1) the anticipated lifetime loss ratio is not less than 70 percent and 2) the anticipated future-only lifetime loss ratio is also not less than 70 percent. All of Anthem's current policy forms are subject to the 70 percent standard.

Policies delivered prior to 7/1/2007 were subject to a standard of 50 percent until they received their first increase on or after 7/1/2007. We consider the 50 percent standard to be irrelevant for this filing because all of Anthem's current policy forms are subject to the 70 percent standard.

Our rating is within the standard: we have conducted a study of the anticipated lifetime loss ratio of the forms included in this filing, where the anticipated lifetime loss ratio is defined to be the ratio of (i) divided by (ii), where (i) is the sum of the accumulated value of past incurred claims and the present value of future anticipated claims, and (ii) is the sum of the accumulated value of past earned premiums and the present value of future anticipated premium earnings. For this study, the future anticipated claims and premium were projected out to 2025.

For policies subject to the 70 percent standard, the anticipated lifetime loss ratio based on the assumptions and methodology outlined below is calculated to be 73.6%. When the past values are not included in the calculation, then the future-only anticipated lifetime Loss Ratio is 76.2%.

Note that the lifetime loss ratio calculation is a test for regulatory compliance and is not a target nor the basis for the filed rate increase.

Assumptions

1. We project the anticipated lifetime loss ratio for the cohort of members sold prior to 9/1/2011.
2. The assumed underlying claims trends, excluding the effects of duration and aging, are:

Year	Annual Trend	Monthly Trend
2010	18.9%	1.5%
2011 – 2025	8.0%	0.6%

The underlying claims trend assumption for 2010 is based on historical claims trends, which are being driven higher by anti-selection as healthy members lapse or buy-down to lower-benefit plans. We believe that this will continue through 2010. Please note that we expect future trends will likely exceed 8% and we intend to price accordingly. The 8% is used for demonstration purposes only and minimally understates the projected lifetime loss ratio.

3. The filed premium increase effective September 1, 2010 is 14.7%.
4. The assumed premium increase from 2011 and going forward are:

Year	Premium Increase
2011-2012	10.0%
2013 – 2025	8.0%

Please note that the assumption is that the premium increases in 2011-2012 will be higher than claims trend and the premium increases in 2013 and later will be equal to claims trend. These assumptions are for demonstration purposes only. The 2011 and later rate increases that we eventually file will depend on a range of considerations including the impact to our members and our financial expectations, as well as compliance with regulatory standards. Note that under our assumptions, the projected lifetime loss ratio is much higher than the minimum lifetime loss ratio standard.

5. Subscribers will experience the rate action on their assigned renewal month. The assumed distribution of renewal months is:

Month	2010 Renewal Distribution	2011 Renewal Distribution
1	7.4%	9.9%
2	8.8%	11.1%
3	2.8%	12.7%
4	3.9%	6.6%
5	4.1%	6.5%
6	4.3%	6.4%
7	4.5%	7.2%
8	4.8%	7.9%
9	42.9%	7.5%
10	5.6%	8.0%
11	5.2%	7.9%
12	5.5%	8.3%
Total	100.0%	100.0%

Note that for this rate increase we have changed the March through August renewal months that are not on a rate guarantee to September, because we have deferred the rate increase from March 2010 to September 2010. We are assuming that member's renewal date in 2011 will be adjusted back to the original renewal month. This is only an assumption at this time. The actual renewal distribution will be determined by our 2011 rate filing.

6. The assumed durational curve for premium and claims is:

length of time in plan	claim index	premium index	loss ratio index
quarter 1	0.675	0.945	0.713
quarter 2	0.826	0.946	0.873
quarter 3	0.973	0.971	1.002
quarter 4	0.992	0.981	1.011
year 2 *	1.000	1.000	1.000
year 3	1.089	1.069	1.018
year 4	1.186	1.123	1.056
year 5	1.356	1.202	1.128
year 6	1.608	1.301	1.236
year 7	1.810	1.403	1.290
year 8	1.847	1.490	1.240
year 9	1.884	1.520	1.240
year 10	1.921	1.550	1.240
year 11+	1.981	1.598	1.240

*note: year 2 is set by convention to be one.

The durational factors are based on Anthem experience except for Year 11+. We have addressed the finding in the Axene Health Partners report, setting the year 11+ durational loss ratio index to be equal to the year 10 durational loss ratio index by lowering the Year 11+ claims index. This does not have a significant impact on the lifetime loss ratio calculation.

The interest rate used to accumulate past values and discount future values is 4.31%.

Methodology

$$\text{Lifetime Loss Ratio} = C / P$$

Let i = the month of past (historical) or projected PMPM experience.

$$C = \sum_{i=1}^{\infty} \text{FV(Past Claims PMPM}_i \times \text{Membership}_i) + \sum_{i=1}^{\infty} \text{PV(Projected Claims PMPM}_i \times \text{Membership}_i)$$
$$P = \sum_{i=1}^{\infty} \text{FV(Past Premium PMPM}_i \times \text{Membership}_i) + \sum_{i=1}^{\infty} \text{PV(Projected Premium PMPM}_i \times \text{Membership}_i)$$

Where FV means the accumulated value and PV means the present values.

$$\text{Future Lifetime Loss Ratio} = FC / FP$$

Let i = the month of past (historical) or projected PMPM experience.

$$FC = \sum_{i=1}^{\infty} \text{PV(Projected Claims PMPM}_i \times \text{Membership}_i)$$
$$FP = \sum_{i=1}^{\infty} \text{PV(Projected Premium PMPM}_i \times \text{Membership}_i)$$

Where PV means the present values.

Policies sold on or after 7/1/2007 or policies that experience a rate revision on or after 7/1/2007 are subject to the 70% lifetime loss ratio standard.

For the purposes of calculating the values over the lifetime of the policy, future values are discounted to January 1, 2010 and past values accumulated to January 1, 2010. Note that the calculation ends with projected claims data through 12/31/2025.

Historical and Projected Experience

The following is the historical and projected experience by year for the forms included in this filing. Months through December 2009 are historical data, with incurred claims paid through March 31, 2010. Months January 2010 and later are projected.

Policies Subject to 70% Loss Ratio Standard (sold or received a rate revision on or after 7/1/07)

Historical

Year	Premium PMPM	Claims PMPM	Loss Ratio	Member Months
2007	\$110	\$62	56.2%	745
2008	\$111	\$67	60.4%	686,208
2009	\$124	\$82	66.2%	1,790,862

Projected

Year	Premium PMPM	Claims PMPM	Loss Ratio	Member Months
2010	\$139	\$98	70.2%	2,439,387
2011	\$164	\$114	69.7%	2,709,199
2012	\$189	\$136	71.8%	1,879,977
2013	\$219	\$162	73.8%	1,193,159
2014	\$253	\$198	78.2%	783,702
2015	\$293	\$244	83.0%	524,497
2016	\$340	\$294	86.4%	358,419
2017	\$389	\$340	87.3%	251,813
2018	\$437	\$378	86.4%	180,100
2019	\$484	\$416	86.1%	128,952
2020	\$531	\$458	86.1%	92,329
2021	\$581	\$500	86.1%	66,108
2022	\$629	\$542	86.1%	47,333
2023	\$680	\$585	86.1%	33,891
2024	\$734	\$632	86.1%	24,266
2025	\$793	\$682	86.1%	17,374

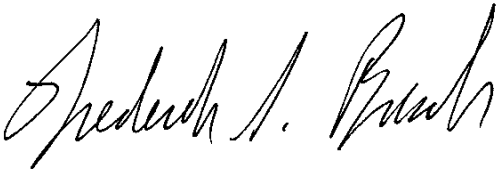

Lifetime

Year	PV(Prem PMPM)	PV(Clms PMPM)	Loss Ratio	Member Months
Future Lifetime	\$190	\$145	76.2%	9,155,507
Total Lifetime	\$171	\$126	73.6%	13,208,323

Note: Non-system claims adjustments of \$0.42 PMPM, which tie with Anthem's financial records, are included in the future projection but are not included in 2009 and prior.

7. Certification

I, Fritz Busch, am an actuary for Anthem Blue Cross Life and Health Insurance Company and a member of the American Academy of Actuaries. I meet the qualification standards of the American Academy of Actuaries for rate filings of health plans. I have prepared this actuarial memorandum to be consistent with Actuarial Standard of Practice Number 8 as adopted by the Actuarial Standards Board. Under the assumptions outlined above, which I believe to be reasonable, I certify that the total lifetime loss ratio and future lifetime loss ratio for policies delivered on or after 7/1/2007 or received a rate revision on or after 7/1/2007 are expected to exceed 70%.

A handwritten signature in cursive script, reading "Frederick A. Busch". The signature is written in black ink and is positioned above the printed name and title.
